

Manilal I. Patel D.D.S., P.C.

566 Suffolk Avenue
Brentwood, NY 11717
(631) 231-5566

Dear Patients,

I welcome you and thank you for choosing us as your dentist. As your dentist, we have obligations to keep your teeth in optimum health.

We request your full commitment to keep appointment to reach our goal of your appointments. Commitment to keep appointments is vital to prevent advanced problems such as root canal therapy, extractions, dentures, bad breath, and bridges.

Neglect to keep appointments may result in mid night excruciating pain, swelling, loss of work and self confidence. Let us be fair to all including your self.

When you don't show up, your teeth conditions get worse, leading more appointments and suffering. Other patients cannot get appointments at the same time you had, she or he to wait which may worsen her or his teeth conditions.

Dentist and staff have been hired to provide your prompt and efficient service for you.

They all get paid even though they are not working when you cancel your appointment.

Pay roll cost needs to charge you. That's why we have a policy to charge for cancellation of appointments without the proof of serious reason.

Proof is required to verify right reason. Wee will understand of your problem. Before we make appointment, make sure you discuss with family for convenient time, our goal is to provide fast and efficient service to lessen future appointments at last minute usually end up in emergencies, loss of teeth, swellings, infections, bad breath, and many more appointments, expensive dental work and poor results of dental work.

You are not helping your self by getting into these problems. Don't get fooled by "My teeth don't hurt, I don't need to see the dentist" we see these patients as emergency patients.

I have been explained and take responsibility to keep appointments. If I could not keep, I will pay \$50 per broken appointment unless I provide proof of emergency.
